Euronext ISO15022 messaging general information and examples

When communicating with Euronext via ISO15022 messages the following rules apply. Examples as seen by Participant and using artificial BICs. Please replace with corresponding BICs reported to Euronext in the form above.

For messages from Participant to Euronext

Messages sent to Euronext need to be addressed to the relevant Euronext Securities CSD via use of correct BIC and transport

Euronext Securities CSD	BIC Address
Copenhagen	VPDKDKKKXXX
Milano	MOTIITMMXXX
Oslo	VPSNNOKKXXX
Porto	IBLSPTPPXXX

For messages sent by Participant to Euronext

```
{1:F01BANKSEDABIC1234123456}{2:I565EURONEXTXXXN}{4:  
....  
-}
```

For messages from Euronext to Participant

```
{1:F01BANKRECEABIC1234123456}{2:O5641200010103EURONEXTXXX12341234560101031201N}{4:  
....  
-}
```

Data communication channel

Please contact the Euronext Securities CSD for details on the communication. All Euronext Securities providers accept messages via SWIFT network. For SWIFT communications, RMA permissions setup may be required.

Direct MQ Queue communication is also supported by select CSDs but requires secure networking setup.
