1. Overview

This guide is intended to help clients complete the two subscription forms for SWIFT messaging related to Corporate Events. It is addressed to intermediaries, issuers, issuer agents, and paying agents:

- ISO 15022 Subscription Form
- ISO 20022 Subscription Form

Clients are reminded that RMA exchanges at the SWIFT level must be in place between ES-Mil and the client.

At the end of the module, you will find examples and additional details.

Please note that this module is intended for temporary use only, until enhanced connectivity selection features become available in MyEuronext. Clients will be informed once these new MyEuronext functionalities are live.

Please read this guide carefully before completing and submitting the forms. There is no amendment form—each new submission replaces the previous one.

2. ISO 15022: Subscription Form

SWIFT messages subscription form ISO15022

Applicable to:

- Participant / Account Controller – Corporate Events
- Issuer Agent / Paying Agent – Corporate Events: Same information requested on the other module, subscription of messages restricted to MT564 and MT566

Form Completion Instructions:

2.1 Header Section

- **Client Name:** Enter your legal company name.
- **Client ID:** Provide your client code (ABI code).

If the subscription is for multiple Client IDs, include the additional IDs in a separate attachment.

- **Environment:** Select **TEST**, **PROD**, or both. Selection is mandatory.
- **Business Service:** Select **Participant – Communication Channel:**
 - **SWIFT FIN:** You must join Euronext Securities' Closed User Group if not already done.
 - **MQ queues:** Service currently not available.
- **Contact Details:** Provide the name, email, and phone number of the person or team responsible for connectivity.
- **Effective Date:** Indicate the date on which the subscription should become active.

If "PROD" is selected, the configuration will become active starting from the CA4U go-live date.

- **BIC & MQ Name:**
 - **SWIFT users:** Provide your 11-character BIC (when sending or receiving SWIFT messages).
 - **MQ users:** Service currently not available.

2.2 Event Type Subscriptions

Subscriptions apply to **all Corporate Action event types**, including notifications and confirmations.

- **MT564 – Notification:**
 - Subscriptions are made at function level, not by individual event type.

- Includes: new, replacement, cancellation, and withdrawal messages.
- **Nil Holding Notification:** Receive notifications even when no holdings are present.
- **Notification with Holdings and Pending Settlement Instructions:** Applies per securities account.
- **Entitlement Calculation Notification (REPE Message):** Sent for all Corporate Action events.
- **Reminder Notification:** Receive reminders related to Corporate Action events.
- **MT566 – Confirmation:** Includes both confirmation and reversal messages.
- **MT568 – Free Text Extension:** Sent when MT564 messages exceed length limits.

2.3 Instruction and Status Messages

- **MT565/MT567:** No subscription is required.

Submitting a Corporate Action instruction will automatically trigger a status message in response.

2.4 Applicable Securities Accounts

-Subscriptions are valid **only** for the specified securities accounts.

- You must list the relevant account numbers.
- Leaving this field blank means the setup will apply to **all** accounts of the client.

2.5 Sign-off

- Provide the **date, authorized signatory name, and signature.**

If a client wants an **account operator** to receive messages, a separate module must be completed quoting the BIC of the account operator.

3. ISO 20022: Subscription Form

SWIFT Messages Subscription Form ISO20022

Applicable to: Participant / Account Controller – Corporate Events

Form Completion Instructions:

3.1 Header Section

- **Client ID:** Enter your client code (ABI code).

If the subscription covers multiple Client IDs, include the additional IDs in a separate attachment.

- **Environment:** Select **TEST**, **PROD**, or both. This selection is mandatory.
- **Business Service :** Select **Participant (CE) – Communication Channel :** SWIFT FIN+.
- **Contact Details:** Provide the email address and phone number of the person or team responsible for connectivity.
- **Effective Date:** Indicate the date on which the subscription should become active.
- **Network Addressing:**
 - **DN:** Participant's network address
 - **BICFI:** BIC of the message owner
 - **BizSvc:** has to be filled with CE, IA or PA depending on the role (where CE = corporate events, IA = issuer agent, PA = paying agent) as per message specifications published in Swift MyStandard (version head.001.001.02)
 - **OtherID:** Euronext ID, 5 characters, same as the ABI)

3.2 Event Types

Subscriptions apply to all types of Corporate Action events, including notifications and confirmations.

The structure includes:

- **Event Notifications:** Seev.031 and Seev.039
- **Entitlements:** Seev.035 and Seev.044
- **Processing Status:** Seev.044
- **Confirmations:** Seev.036 and Seev.037

3.3 Instruction and Status Messages

(No Additional action or subscription needed is specified in this section.)

3.4 Applicable Securities Accounts

- Subscriptions are valid **only** for the specified securities accounts.
- You must list the relevant account numbers.
- Leaving this section blank means the setup will apply to **all** the client's accounts.

3.5 Sign-off

- Provide the **date, authorized signatory name, and signature.**

If a client wants an **account operator** to receive messages, a separate module must be completed quoting the BIC of the account operator.

Note for Issuer Agent / Paying Agent:

Form Name: SWIFT Messages Subscription Form – ISO 20022 – Issuer Agent/Paying Agent – Corporate Events

The same information is required as in the Participant module. However, message subscriptions are limited to Seev.035, Seev.036, and Seev.037 only.

4. Delivery & Support

- **Submission Deadline:** The completed form must be submitted by **June 30th**.
- **Submission Contact:** Please send the completed form to the **MDM team**: MT-Mdm@euronext.com
- **Need Help?** If you have any questions after reviewing this guide, please contact the **EAM team** for assistance **before submitting** the form: eam@euronext.com

5. Further Reading

- **ISO 15022 Message Examples:** For message structure and use cases, refer to Euronext's general messaging documentation.
- **ISO 20022 Formats:** Detailed message specifications are available on [My Standards](#).
