1. Executive summary

This document outlines the Euronext Securities Copenhagen Withholding Tax Relief at Source (RaS) service available for selected Finnish equity securities distributed through Euronext Securities Copenhagen.

The service supports the application of reduced withholding tax rates on eligible dividend distributions at payment date, subject to applicable tax regulations, double taxation treaty (DTT) requirements, participant eligibility conditions and operational agreements established between the involved parties.

The Euronext Securities Copenhagen RaS service currently operates under a segregated account model and applies only to participating issuers and eligible participants onboarded to the service.

The service may include:

- participant onboarding and set-up
- eligibility validation
- operational controls
- reporting preparation
- coordination with issuers and issuer agents in connection with eligible dividend events.

For Finnish securities, participants will be required to maintain valid Authorised Intermediary (AI) registration with the Finnish Tax Administration (Vero), where applicable.

The service is operational in nature and does not constitute legal, tax, regulatory, financial or any other type of professional advice. Participants remain responsible for assessing their own tax obligations, eligibility status and compliance requirements.

The service is currently delivered through operational processes and agreed communication channels between Euronext Securities Copenhagen, issuers, issuer agents and participating clients.

2. Introduction

Cross-border dividend distributions may be subject to withholding tax requirements and reduced tax treatment based on applicable tax regulations, double taxation treaties (DTTs), and market practices.

Euronext Securities Copenhagen provides a Withholding Tax Relief at Source (RaS) service supporting dividend distributions for eligible Finnish securities.

This document provides a description of the service, including scope, applicable market practices and the operational lifecycle supporting the service.

3. Service overview

The service supports operational processing activities related to withholding tax relief at payment date for eligible participants and underlying investors.

Service component	Covered by the service
Participant onboarding and operational set-up	Covered
Eligibility validation and operational controls	Covered
Operational reporting preparation	Covered
Coordination with issuers and issuer agents	Covered
Support for withholding tax relief at source processing	Covered
Quick refund processing	Not covered
Standard tax reclaim processing	Not covered
Nominee / omnibus account support	Not covered
Legal, tax, or regulatory advice	Not covered

4. Standards and market practices

The service supports withholding tax relief on payment date based on:

- applicable tax regulations
- double taxation treaty (DTT) requirements
- participant eligibility
- operational agreements established between the involved parties.

For Finnish securities, applicable market practice requires participants to maintain valid Authorised Intermediary (AI) registration with the Finnish Tax Administration (Vero).

Operational processing and reporting activities are performed in alignment with the lifecycle and deadlines of the relevant dividend events.

5. Actors involved in the service

The delivery of the Euronext Securities Copenhagen Withholding Tax Relief at Source service involves coordination between multiple parties.

The table below summarises the high-level roles and responsibilities of the different stakeholders associated with the service.

Actor	Role
Euronext Securities Copenhagen (ES-CPH)	Operational delivery of the RaS service, including: participant set-up support; tax relief eligibility validation; operational controls; reporting preparation; coordination with issuers and issuer agents
Issuer	An Issuer is a legal entity that issues financial instruments and has them registered/issued in the relevant Euronext Securities CSD system
Issuer Paying Agent	An Issuer Agent is a legal entity performing all or part of responsibilities with Euronext Securities on behalf of an Issuer (or where relevant, the CSD)
CSD Participant	A CSD Participant is a legal entity that opens and maintains securities accounts on its own behalf or on behalf of its clients with the relevant Euronext Securities CSD, and/or maintains custody services and/or participates in the settlement services provided by Euronext Securities.
Finnish Tax Administration (Vero)	Maintain the Authorised Intermediary (AI) registration framework applicable to eligible Finnish securities
Euronext Operations	Perform operational controls, validations, reporting preparation, and exception handling activities supporting the service lifecycle

Euronext Securities Copenhagen reserves the right to suspend or remove participants from the service where eligibility requirements or operational conditions are no longer satisfied.

6. Service scope

The scope of the Euronext Securities Copenhagen Withholding Tax Relief at Source service covers selected Finnish dividend-related market activities supported through Euronext Securities Copenhagen.

Term	In scope	Out of scope
Eligible Securities	Finnish equity securities	Debt instruments and non-supported securities.
Corporate Action Events	Eligible dividend-related events	Non-dividend corporate action events
Tax Service	Relief at source processing.	Standard tax reclaim and automated quick refund processing.
Account Model	Segregated account model	Omnibus / nominee account structures

Note: the service scope may evolve over time subject to regulatory developments, market practices, operational readiness and business prioritisation.

7. Service lifecycle

The Euronext Securities Copenhagen Withholding Tax Relief at Source service follows a controlled operational lifecycle to ensure the correct application of withholding tax relief on eligible dividend events.

The lifecycle consists of the following key stages:

7.1 Service onboarding and eligibility validation

Participants must satisfy the applicable onboarding and eligibility requirements before benefiting from the RaS service.

This includes:

- execution of the required contractual agreements
- participant set-up within Euronext Securities Copenhagen operational systems
- for Finnish securities where applicable, registration as an Authorised Intermediary (AI) with the Finnish Tax Administration (Vero).

Euronext Securities Copenhagen performs ongoing controls to validate:

- agreement status
- operational set-up accuracy.

7.2 Eligibility and operational controls

Euronext Securities Copenhagen performs operational controls throughout the service lifecycle to ensure continued participant eligibility and service accuracy.

Controls may include:

- verification of AI registration status with Vero
- validation of participant agreements
- confirmation of operational set-up within Euronext Securities Copenhagen systems
- review of special cases such as mergers, bankruptcies or service removals.

7.3 Dividend payment reporting and validation

Euronext Securities Copenhagen performs final validation on the dividend payment calculations and participant eligibility data prior to making the reports available to the Issuer.

Corrections may be applied where necessary to ensure:

- reporting accuracy
- correct withholding tax treatment
- compliance with operational and regulatory requirements.

7.4 Reporting to Issuer

Following completion of operational controls and validations, the final reporting output is delivered to the Issuer in xlsx format within the agreed timeline for the relevant dividend event via email.

8. Glossary

Below is a definition of terms used in this document. If not otherwise specified:

- All times used in this document are in Central European Time (CET);
- "We", "our" and "us" refer to Euronext Securities.

Terms	Definitions
Authorised Intermediary (AI)	Status granted by the Finnish Tax Administration (Vero) allowing eligible intermediaries to participate in applicable withholding tax relief processes.
Vero	Finnish Tax Administration responsible for maintaining the Authorised Intermediary ("AI") framework applicable to Finnish withholding tax processing.
Beneficial Owner (BO)	The underlying investor entitled to receive income from a security.
Double Taxation Treaty (DTT)	Tax treaty between jurisdictions intended to avoid double taxation and define applicable withholding tax treatment.
Dividend event	Corporate action event involving the distribution of dividends to eligible holders of a security.
Euronext Securities Copenhagen (ES-CPH)	Operational delivery of the RaS service, including: participant set-up support; tax relief eligibility validation; operational controls; reporting preparation; coordination with issuers and issuer agents

Issuer	An Issuer is a legal entity that issues financial instruments and has them registered/issued in the relevant Euronext Securities CSD system
Issuer Agent / Paying Agent	An Issuer Agent is a legal entity performing all or part of responsibilities with Euronext Securities on behalf of an Issuer (or where relevant, the CSD)
Operational controls	Validation and review activities performed to support eligibility verification, reporting accuracy, and operational processing.
Participant / SAC	A CSD Participant is a legal entity that opens and maintains securities accounts on its own behalf or on behalf of its clients with the relevant Euronext Securities CSD, and/or maintains custody services and/or participates in the settlement services provided by Euronext Securities.
WHT (Withholding Tax)	Tax is deducted at source from distributions before they are paid to the investor.
Relief at source (RaS)	Set of processes by which the holder (beneficial owner) benefits from reduced taxation by applying a reduced withholding at source (i.e. directly when the income is paid) based on the nature of the beneficial owner, its residence and the eventual dual taxation agreement in place.
Quick refund	Set of processes by which the holder (beneficial owner) gets a refund of the excess withholding tax paid shortly after the income payment and generally before the withholding tax is paid to the Tax Authorities.

Standard Tax Reclaim	Set of processes by which the holder (beneficial owner) claims a refund of the excess withholding tax paid after the withholding tax collected has been paid to the Tax Authorities.
CSD	Central Securities Depository
Payment date	Date on which a Corporate Actions-related Payment is due.
Record date	Date/time at which positions are recorded at the end of the day to determine which parties are entitled to receive proceeds in a corporate event
Segregated account model	Account structure where holdings are maintained separately at participant level rather than through omnibus aggregation.
